REMARKS/ARGUMENTS

Claims 1-11 are pending in the present application. Claims 1-11 have been cancelled and replaced with new claims 12-14. The drawings have been objected to because reference numeral 74 in Fig. 3 should be numeral 72 and reference numeral 102A is missing. The Applicant has eliminated the second occurrence of numeral 74 from Fig. 3 and has amended the specification to change numeral 102A to 82A to overcome these objections. The drawings additionally have been objected to under 37 C.F.R. 1.83(a) because the drawings must show every feature of the invention specified in the claims. Claims 1-11 have been cancelled and replaced with new claims 12-14 to overcome this objection. New Fig. 3 with corrections shown in red and thus submitted with this amendment as a part of this section to correct the drawings in this application.

The disclosure has been objected to because of several informalities. The disclosure has been amended to overcome these informalities. Claims 1-11 were rejected under 35 U.S.C. § 112 first paragraph as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant has cancelled claims 1-11 and replaced them with new claims 12-14 that properly depend on the specification. New claims 12-14 are considered in allowable form.
